TECHNICAL SKILLS

JavaScript | Python | C++ | SQL | React.js | React Native | Node.js | Express.js | MongoDB | Firebase | REST APIs | HTML5 | CSS3 | Tailwind CSS | Git | GitHub | Postman | VS Code | ESP32 | MQTT | SQL Server | OOP | CRUD | MVC

LANGUAGES

Urdu
Native Proficiency
English
Professional Working Proficiency
Italian
Beginner

CORE AREAS

- Full-Stack Development
- Web Development
- Mobile App Development
- REST API Development
- Database Management
- IoT Development
- Software Engineering
- Technical Troubleshooting

ADDITIONAL

Development Tools
Git, GitHub, VS Code, Postman, npm
Technologies
REST APIs, JSON, MQTT, Firebase
Areas of Interest
Software Development, IoT, AI, Cloud Technologies

PROFESSIONAL SUMMARY

Computer Science graduate and Full-Stack Developer with **2nd Position** in the University of Gujrat Final Year Project Competition. Hands-on experience in React.js, React Native, Node.js, Express.js, MongoDB, Python, Firebase, and REST APIs. Experienced in application development, database management, API integration, authentication, debugging, and real-time systems. Also experienced in IoT and embedded systems using ESP32 and MQTT. Strong foundation in OOP, software engineering, Git/GitHub, and problem solving. Seeking an IT or Software Development role where I can contribute to real-world systems and build scalable, reliable solutions.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — 2022 – 2026

University of Gujrat, Hafiz Hayat Campus
Gujrat, Pakistan

SELECTED PROJECTS

Ecoplugify – Smart AI Energy Monitoring & Control System *React Native | Node.js | MongoDB | MQTT*

- Developed an IoT platform for real-time energy monitoring, appliance control, scheduling, and analytics using ESP32, MQTT, and React Native.
- Built Node.js/Express backend APIs and MongoDB data management for devices, energy usage, and users.
- **2nd Position** – University of Gujrat Final Year Project Competition 2026.

Yexonimpex – Full-Stack E-Commerce Application *React | Node.js | Express | MongoDB*

- Developed a responsive e-commerce platform with product management, inventory, authentication, orders, and REST API integration.

Airbnb Property Booking Database System *SQL Server | Database Design*

- Designed a normalized relational database covering guests, hosts, properties, bookings, payments, and reviews.
- Developed ERD, primary/foreign keys, constraints, relationships, and SQL queries for booking workflows and data integrity.

AI Resume Builder *React | AI Integration*

- Built an AI-assisted web application for creating structured and customizable professional resumes.

ACHIEVEMENTS

- **2nd Position** – Final Year Project Competition 2026, University of Gujrat; received Cash Prize and Certificate of Achievement.
- **National Skill Competency Test (NSCT)** – 52 marks, 67th percentile.
- Developed Ecoplugify by integrating embedded systems, mobile application, backend APIs, database management, and MQTT-based real-time communication.

CERTIFICATIONS & TRAINING

Final Year Project Competition – 2nd Position
University of Gujrat, 2026 – Certificate of Achievement & Cash Prize
Google AI Agents Intensive
Kaggle, 2026
